## Hanse 360 nominated for European Yacht of the Year

**Greifswald, 5 September 2024:** The new Hanse 360, the most compact model in the successful new series from Hanse's collaboration with the yacht designers at Berret-Racoupeau, has been nominated for the European Yacht of the Year 2025 award. The Hanse 360 will have her French premiere at the Cannes Yachting Festival from 10-15 September.

With her exceptionally high volume at 36 feet in length, her well thought-out layout options and her wide range of customisation options, she is in a class of her own. The distinctive design of the Hanse 360 with the typical Hanse chines not only ensures stability and performance, but also, as with her larger sisters, an enormous amount of space and thus an unusually high level of comfort in this class. Luxurious extras such as a BBQ and a refrigerator in the cockpit, extended cooling capacity below deck or a second separate bathroom in the owner's cabin make the Hanse 360 unique.

Like all Hanse yachts, the Hanse 360 stands for fast cruising and easy sailing. All lines are led to the helm station, making the yacht not only safe and comfortable, but also suitable for single-handed sailing, as is standard with Hanse. The optional bowsprit enables extended sailing options and therefore more power for the yacht on the water. The optional performance rig with a larger sail area enables a further increase in performance.

The European Yacht of the Year Award is the world's most important boatbuilding award for sailing yachts worldwide. The "Oscar" of yachting is awarded by a jury of twelve leading European magazines that are recognised far beyond their respective countries.
